

FOR IMMEDIATE RELEASE

Atlanta, Georgia, NECC, June 24, 2007 One2OneMate™, A Division of Alta Heights Technology Corporation, introduces StudentMate™, the first Linux based laptop solution for education. The StudentMate™ by One2OneMate™ features a 7" color screen, full size QWERTY laptop keyboard, wireless and Ethernet connectivity, Flash, web browser, Word and Excel compatible applications, typing tutor, e-mail, a 5 yr. warranty and much more!

The StudentMate was a success at the recent NECC Show held on June 24th in Atlanta Georgia. The overall feedback from customers who visit the booth was the StudentMate is truly the only low cost One2One laptop solution for education that they have seen. Based on the potential sales indications, the Company is confident it will exceed sales forecasts.

"All the research that went into the development of StudentMate was apparent by the attention that the product and the Company received. This was a result of a group of individuals that had a very good understanding of the educational market and what was needed to truly offer a One2One computing solution at a Total Cost of Ownership not prohibitive to the school." said Ben Evered, VP Marketing & Sales of One2OneMate.

A number of large educational content companies have recognized the potential of the StudentMate early on and therefore have either completed or amidst developing educational applications that One2OneMate will make available. Visit our web site at www.One2OneMate.com for periodic updates.

StudentMate™ is available for \$399, wireless optional, (volume discounts available). If you are interested in evaluating the StudentMate, please complete the evaluation request form on our site at <http://one2onemate.com/evaluation.html>. A One2OneMate sales representative will follow up with you to discuss your school or district software needs, elaborate further on our software suite and answer any questions you may have.

Many thanks for your interest in the StudentMate.
