

StudentMate™ The low cost Student Laptop

StudentMate™ - District Administration Magazine

Readers Choice Top 100 K12 Products for 2007 – 2008

FOR IMMEDIATE RELEASE

Los Gatos, CA. - February 25, 2008 – One2OneMate™, manufacturers of the StudentMate™, the low cost 1:1 laptop for K-8, has earned District Administration magazine's **Readers Choice Top 100 K12 Products for 2007 – 2008.**

The StudentMate™ was selected from among thousands of entries in District Administrations growing database along with being reviewed by District Administration and recommended by readers as well. Using a unique star rating system, District Administration editors asked their readers to rate and recommend products they've used successfully in real-world environments. StudentMate™ earned 4 and ½ stars, positioning itself in the top spot for a handheld device. A complete list of the winners can be viewed at www.districtadministration.com/products

Ken Royal, Editor for District Administration - " I'm seeing more alternatives to expensive laptop solutions for schools. Districts looking to put computing power into the hand of students appreciate an option like StudentMate™ and its Linux solutions. It just makes sense when a district technology director can buy three for the price of a single more expensive computer. One to one classroom computing is getting a lot more affordable."

Ben Evered, VP Sales & Marketing - "We are extremely proud to be awarded the Readers Choice Award and are delighted to receive a rating of 4 1/2 stars. Educators are clearly seeing that the true total cost of ownership is a key factor for any laptop rollout, it's not just about the upfront purchase price. StudentMate is currently the only educational specific low cost laptop that boasts an impressive FREE 5 year warranty and has a child specific rugged design. The StudentMate's full size keyboard and non hinging high resolution touch screen together with its great collection of pre-installed software, are being extremely well received by K-8 educators."

About District Administration Magazine

District Administration is the magazine of education leadership for district-level decision makers in K-12 education. Published twelve times per year, District Administration reaches more than 75,000 top-level decision makers, including superintendents, assistant superintendents, technology directors, school board presidents, federal funds administrators, and others. The magazine covers current trends and pressing issues in the K-12 education industry along with strong coverage of emerging technologies and leadership issues for district-level administrators.

About One2OneMate

One2OneMate™ was founded on the simple premise that K-8 schools need an affordable, and highly durable computing device that doesn't require an army of technicians and network support personnel to manage them.

With extensive background in the technology industry – designing, developing and manufacturing products for K8, our leadership team set out with the vision of creating an educationally focused student computing device with a Total Cost of Ownership of under \$100/year* * **Total Cost Of Ownership based on average K12 computer lifecycle of 4-6 years.**
